**Mr Taysir Dabbagh
Director of Associated Water
Management Consultants (Great Britain)**

Letter of Recommendation

Many water-related projects are being implemented in Uzbekistan financed by loans from ADB, WB and Arab national and regional funding agencies. The consulting services are provided by various international companies, which hire national technical staff in addition to their international staff.

AWMc is one of these companies. They are a firm of international consultants, which have previously worked as the sole sub-consultant to KCIC of Kuwait. The consultants AWMc prepared the Feasibility Study for the Rehabilitation of the Irrigation and Drainage Network for Djizak and Syrdarya project, and the detailed design and preparation of the tender documents are now being carried out.

Also, AWMc has successfully prepared the tender documents for the Rehabilitation of Kuyu-Mazar Pumping Station Project in Bukhara Province (replacing floating pumping stations by a stationary pumping station). AWMc prepared the Feasibility Study and tender documents in a timely and professional manner for both of the above projects, and can be recommended as a consulting company for the provision of services for new water-related investment projects.

Deputy Minister

A handwritten signature in blue ink, appearing to read 'Khamrayev'.

Sh. Khamrayev
